

## Pen Carbide Cleaver & Aramid Yarn Scissors

### PEN CARBIDE CLEAVER

This carbide cleaver is presented in a pen style lightweight form, which is easy to carry and includes a protective clip-on cap. The 30° wedge angle ensures a precision cleave for speedy “use anywhere” fibre preparation.

#### FEATURES

- Compact pen cleaver
- Made from lightweight chrome-plated copper
- Tip material made from carbide
- Clip-on pocket storage
- Weight: 30 grams
- Overall length: 132mm
- Ideal for use with our field installable connectors
- Presented in a plastic case with sleeve

### ARAMID YARN SCISSORS

Specially designed scissors for cutting through aramid yarn-lined fibre patchcords. Made from hardened steel with sharp serrated teeth and suitable for cutting a multitude of materials.

#### FEATURES

- Sharp serrated teeth for cutting aramid yarn
- Robust and durable
- Ergonomic design
- Can be used on other materials
